NAVEX Global Learning Management System

Overview

NAVEX Global's Learning Management System (LMS) is an easy-to-use, intuitive and powerful application for managing and delivering NAVEX Global's online training courseware.

A SIMPLE LMS WITH POWERFUL CAPABILITIES—FOR LEARNERS AND ADMINISTRATORS

FOR LEARNERS, an LMS should provide a frictionless path to content. Technology shouldn't get in the way of their training experience.

FOR ADMINISTRATORS, an LMS should provide, deploy, track and report on compliance training programs, metrics and progress toward goals.

NAVEX Global's LMS meets the needs of both learners and administrators. Set-up is quick and simple with minimal impact on your organization's IT infrastructure and resources. Our LMS also includes user-friendly wizards to make program administration easy. In many cases, new administrators—even those without previous experience or special skills—can be up and running in as little as one hour, allowing your learners to access content quickly and easily.

FLEXIBLE AND SCALABLE LMS SUPPORTS ORGANIZATIONS OF ALL SIZES

Our flexible and scalable LMS is ideal for organizations of all sizes, regardless of the complexity of your compliance training program. While small and mid-sized organizations often appreciate the simplicity and user-friendly accessibility of the tool, larger, multi-national organizations tend to benefit from the tool's advanced features, such as the ability to segregate training data by region, division and group structures, and create enhanced reporting for program administrators.

KEY FEATURES OF NAVEX GLOBAL'S LMS

- Enhanced user interface to make learning management easy
